

Quality Practices in Translation Studies

The [Master in Translation and Terminology Studies programme](#), offered by the [Department of Translation and Terminology Studies](#) at UM, has been selected by the European Commission for membership to the [EMT \(European Masters in Translation\)](#) network 2019-2024.

The programme offers specialisation streams in **audiovisual, literary or technical translation**. The audiovisual translation stream, coordinated by [Dr Giselle Spiteri Miggiani](#), includes cutting edge technology in its course programme so as to bridge academic and professional practice. Hands-on sessions in multilingual dubbing translation adopt cloud-based software tools such as ZOOdubs, which enables students to practise individually by accessing the portal with their personal user accounts.

*Do you have an example of good QA practice at your unit which you would like us to share?
