Wieġeb il-mistoqsijiet **KOLLHA** miż-żewġ taqsimiet.

TAQSIMA A

Aqra din is-silta u wieġeb il-mistoqsijiet KOLLHA.

Hemm differenzi bejn is-soċjetajiet fl-ammont ta' **poter** li ċ-ċittadini ordinarji għandhom biex jinfluwenzaw id-deċiżjonijiet tal-gvern, u dawn id-differenzi jidhru f'żewġ sistemi političi opposti: id-demokrazija u t-totalitarjaniżmu. Filwaqt li dawn it-tnejn huma pprezentati bħala sistemi opposti, il-maġġoranza tas-sistemi političi jaqgħu xi mkien bejniethom.

Id-demokrazija hija sistema ta' **gvern** li bažikament tinvolvi li jkollok "gvern tan-nies, immexxi min-nies, għan-nies", fejn iċ-ċittadini ordinarji għandhom kontroll parpjali fuq it-teħid ta' deċiżjonijiet tal-gvern. Mhux prattiku għal kulħadd f'soċjetà li kull ċittadin jkun involut b'mod permanenti u dirett fit-teħid ta' deċiżjonijiet političi, u għalhekk spiss ir-rappreżentanti huma eletti biex jirrappreżentaw l-opinjonijiet tan-nies – bħall-MP (il-Membri Parlamentari) u l-kunsilliera lokali. Din is-sistema hija magħrufa bħala demokrazija rappreżentattiva jew parlamentari, u ssibha ġewwa Malta, il-Brittana, Franzja, il-Ġermanja u pajjiżi oħra tal-Unjoni Ewropea kif ukoll l-I-Stati Uniti. L-elezzjoni tar-rappreżentanti hija parti importanti f'demokrazija. Madanakollu soċjetà demokratika s-soltu tinkludi fiha ħafna aktar fatturi biex tiżgura li r-rappreżentanti jistgħu jiġu mibdula jekk isegwu politika mhux popolari u li n-nies jistgħu jesprimu l-opinjonijiet tagħhom b'mod hieles.

It-Totalitarjaniżmu huwa sistema ta' gvern fejn is-soċjetà hija kkontrollata minn grupp żgħir ta' nies ta' poter – l-elit – u ċ-ċittadini ordinarji m'għandhom l-ebda kontroll fuq it-teħid tad-deċiżjonijiet tal-gvern. F'din is-sistema ma ssibx **elezzjonijiet hielsa** u l-ebda libertajiet civili, u l-parti l-kbira tal-karatteristiċi f'demokrazija ma jeżistux. Il-gvern jmexxi billi jinforza aktar milli jfittex l-kunsens. In-nies huma sfurzati li jobdu l-gvern minħabba l-kontroll tiegħi fuq il-pulizija, il-qrati, l-armata u l-midja tal-massa. L-**istituzzjonijiet soċjali** ewlenin huma kollha kkontrollati strettament mill-gvern. L-ideat li jmorru kontra dawk tal-gvern huma censurati u kwalunkwe **oppożizzjoni** titwaqqaf bil-forza.

TAQSIMA B

Aqra din is-silta u wieġeb il-mistoqsijiet KOLLHA.

Il-bnedmin huma differenti mill-ispecijiet I-oħra kollha minħabba l-impatt tagħhom fuq in-natura. Għal ħafna minna, qatt mhu bizzżejjed li n-natura tagħtina d-dawl, is-shana, l-ikel u l-kenn ... Fil-każ tagħna għandna varjetà ta' ġhtiġijiet soċjali bħall-bżonnijiet edukattivi kif ukoll ġtiġijiet ta' rikreazzjoni. Kull waħda minn dawn il-**ħtiġijiet soċjali** hija maħsuba biex toffrlina eżistenza shiħa u aktar sigura fid-dawl ta' **livell ta' għajxien** aħjar.

U x'qed inħallsu għal dan? L-ambjent fiżiku u soċjali qed ikun irrispettat u apprezzat bizzżejjed? Ir-rata tat-tnaqqis tal-ambjent naturali qiegħda tagħti čans sabiex in-natura terġa' tirriġenera u żomm il-forma oriġinali tagħha? L-ambjent soċjali, fejn in-nies jinteraqixxu ma' xulxin u fejn jissoċjalizzaw bħala cittadini attivi u responsabbi, qiegħed iwassalhom għal kwalità ta' ħajja b'saħħitha? Fi kliem ieħor, il-bniedem qiegħed isegwi forma sostenibbli ta' žvilupp?

Is-soċjetajiet qed isiru iktar konxji u mhassba serjament dwar din il-forma specjali ta' žvilupp – I-iżvilupp sostenibbli - li jimplika żewġ kunċetti ewlenin: I-ewwel, il-kunċett tal-ħtiġijiet, b'mod partikolari I-ħtiġijiet esenzjali tal-foqra fid-dinja li għandha tingħata priorità. It-tieni, l-idea tal-limitazzjonijiet imposti mill-qagħda tal-**iżvilupp teknoloġiku** u l-organizzazzjonijiet soċjali fuq kemm I-ambjent jiflaħ jilħaq il-ħtiġijiet prezenti u futuri.

(Adattament minn: Godfrey Baldacchino (2016):*Introducing Social Studies: A Maltese Reader*, Miller Publications, Malta)

1. Spjega fil-qosor dawn il-frażijiet li ġejjin:

- (a) Il-ħtiġijiet soċjali; (2)
- (b) Il-livell ta' għajxien; (2)
- (c) L-iżvilupp teknoloġiku. (2)

2. Spjega u uri b'ejempji kif I-iżvilupp jista' jieħu forma sostenibbli. (9)

3. Spjega d-differenza bejn:

- (a) I-ambjent fiżiku u soċjali; (5)
- (b) I-istandardi ta' għajxien u l-kwalità tal-ħajja. (5)

4. F'madwar 50 kelma, spjega I-miżuri meħuda mis-soċjetà biex tlaħhaq mal-ħtiġijiet tal-foqra fid-dinja. (10)

5. F'paragrafu ta' madwar 80 kelma, iddiskuti kif it-teknoloġija tista' kemm thedded kif ukoll tippromwovi I-iżvilupp sostenibbli. (15)

TIME:	4:00 p.m. to 6:05 p.m.

Answer **ALL** the questions from both sections.

SECTION A

Read the text and answer ALL the questions.

There are differences between societies in the amounts of **power** ordinary people have to influence government decisions, and these differences are shown in two opposing political systems: democracy and totalitarianism. While these two are presented as opposing systems, most political systems will fall in between the two.

Democracy is a system of **government** which basically involves a "government of the people, by the people, for the people", where ordinary people have some control over government decision-making. It is impractical for everyone in society to be permanently and directly involved in political decision-making, so often representatives are elected to represent people's opinions – such as MPs (Members of Parliament) and local councillors. This is known as representative or parliamentary democracy, and is found in Malta, Britain, France, Germany and other countries of the European Union and the USA. Electing representatives is an important part of a democracy. However a democratic society usually includes many other features to ensure that representatives can be replaced if they follow unpopular policies and that people can freely express their opinions.

Totalitarianism is a system of government where society is controlled by a small powerful group – an elite – and ordinary people lack any control over government decision-making. In this system there are no **free elections** and no civil liberties, and most of the features in a democracy do not exist. The government rules by coercion rather than consent. People are forced to obey the government because of its control of the police, law courts, the army, and the mass media. All the major **social institutions** are strictly controlled by the government. Ideas opposed to those of the government are censored and any **opposition** crushed by force.

(Adapted from Ken Browne (2011), *An Introduction to Sociology*, 4th edition, Polity, UK)

1. Briefly define the following concepts:

- (a) Power; (2)
- (b) Government; (2)

SECTION B

Read the text and answer ALL the questions.

Human beings also differ from all other species in the demands that they make on nature. For most of us, it is never enough for nature to provide us with light, warmth, food and shelter ... In our case, we have a variety of social needs such as educational needs and recreational needs. Each of these **social needs** is meant to offer us a fuller and safer existence in view of a better **standard of living**.

But at what cost? Is the physical and social environment being respected and appreciated enough? Is the rate of depletion of the natural environment allowing nature to replenish itself and maintain its original stock? Is the social environment, where people interact with each other and in which they are socialised as active and responsible citizens, leading them to a healthy quality of life? In other words, are humans following a sustainable form of development?

Societies are becoming increasingly aware of and seriously concerned with this special form of development - sustainable development – which implies two key concepts: first, the concept of needs, in particular the essential needs of the world's poor to which overriding priority should be given; second, the idea of limitations imposed by the state of **technological development** and social organisations on the environment's ability to meet present and future needs.

(Adapted from: Godfrey Baldacchino (2016):*Introducing Social Studies: A Maltese Reader*, Miller Publications, Malta)

1. Briefly explain the following phrases:
 - (a) Social needs; (2)
 - (b) Standard of living; (2)
 - (c) Technological development. (2)
2. Explain and illustrate with examples how development can take a sustainable form. (9)
3. Explain the difference between:
 - (a) physical and social environment; (5)
 - (b) standards of living and quality of life. (5)
4. In about 50 words, explain measures taken by society to meet the needs of the world's poor. (10)
5. In a paragraph of about 80 words, discuss how technology can both threaten and promote sustainable development. (15)
