Introduction

This syllabus is based on the curriculum principles outlined in *The National Curriculum Framework for All* (NCF) which was translated into law in 2012 and designed using the *Learning Outcomes Framework* that identify what students should know and be able to achieve by the end of their compulsory education.

As a learning outcomes-based syllabus, it addresses the holistic development of all learners and advocates a quality education for all as part of a coherent strategy for lifelong learning. It ensures that all children can obtain the necessary skills and attitudes to be future active citizens and to succeed at work and in society irrespective of socio-economic, cultural, racial, ethnic, religious, gender and sexual status. This syllabus provides equitable opportunities for all learners to achieve educational outcomes at the end of their schooling that will enable them to participate in lifelong and adult learning to reduce the high incidence of early school leaving and ensure that all learners attain key twenty-first century competences.

This programme also embeds learning outcomes related to cross-curricular themes, namely digital literacy; diversity; entrepreneurship creativity and innovation; sustainable development; learning to learn and cooperative learning and literacy. In this way, students will be fully equipped with the skills, knowledge, attitudes and values needed to further learning, work, life and citizenship.

What is the subject? Give a general definition.

The study area SEC Music aims at providing candidates with a progressive and holistic approach to musical knowledge. It is concerned with developing musical abilities through the various strands that explore a number of skills. These include the theoretical, practical, aural, creative and general knowledge areas of music. The broad learning outcomes identify such knowledge, skills and values that candidates achieve and demonstrate throughout the course of the programme. Music as a subject gives candidates a platform to utilise their musical and instrumental talent in different learning contexts. In doing so, Music keeps itself aligned with the NCF in adopting a “more cross-curricular, thematic, interdisciplinary and collaborative approach that reflects real life situations and encourages transfer of skills from one learning area to another.” **It is advisable that candidates who opt for this course have a basic understanding of Music, at least at Grade 2 level.**

What does a study of the subject entail?

Music encapsulates an artistic expression, which goes beyond conventional linguistic practices. Music is an artistic medium, comprising the beauty of form, melody, harmony, and expression of emotion, all of which pertain to one or more artistic strand/s, namely creativity (composition), auditory (listening), expressivity and performance. These strands intertwine into a collage of artistic skills, with a direct positive impact on the overall academic achievement of the student. During the course, candidates will have the opportunity to explore all of these strands through theory, musicianship, history, analysis and performance classes. These sessions are implemented both in groups and individually, with the aim of bringing out the artistic creativity of students.

How is the subject related to candidates’ lives, to Malta, and/or to the world?

The study of the subject will help students to assess the micro- and macro-context of Music, relating to its pertinence in their lives. It will help students to merge theoretical-cum-practical skills with creative knowledge thus contributing holistically to their cultural and cognitive enrichment. The subject encourages students to pursue interaction with the local musical scenario while exploring possible interdisciplinarity and integration within the international musical scenario.

Music as a universal mode of expression propels the students to develop further their instrumental/vocal skills and ensemble playing. This course incorporates a variety of strands related to music learning – listening and responding, performing and composing. Music education can act as a springboard for students to further

develop skills in confidence, personality and presentation. Music learning widens the students' cultural horizons both in Malta and globally, the cultural sector offers a variety of areas of interest that can lead to various possible openings.

School-based assessment (SBA): is any type of assessment of a candidate made by the school relevant to the respective SEC syllabus contributing to the final level awarded in the subject.

Controlled assessment: is comprised of a 1 hour 45 minutes written exam, a 10-minute performance exam and a 5-minute sight-reading task including preparation time, set at the end of the programme and differentiated between two tiers:

- a. Levels 1 and 2;
- b. Levels 2 and 3.

Candidates are to satisfy the examiner in Paper I and Paper II to obtain a level higher than 1.

Paper I - School Based Assessment: 30% of the total marks.

The school-based assessment shall be marked out of 100 each year (9, 10 and 11). The assessment for each year will contribute to 10% of the overall mark and will be reported to MATSEC by the school in Year 11. Therefore, each year will equally contribute to the final mark of the school-based assessment. The school-based assessment shall reflect the MATSEC syllabus covered in Year 9, Year 10 and Year 11.

School-based assessment can be pegged at either of two categories:

- SBA at categories 1-2 must identify assessment criteria from these two levels. It is suggested that ACs are weighted at a ratio of 40% at Level 1 and 60% at Level 2.
 - SBA at categories 1-2-3 must identify assessment criteria from each of Levels 1, 2, and 3. It is suggested that ACs are weighted at a ratio of 30% at each of Levels 1 and 2, and 40% at Level 3.
- The mark for SBA at level categories 1-2 presented for a qualification at level categories 2-3 will be calculated to 60% of the original mark. The mark stands in all other cases.

Paper II - Controlled Assessments: 70% of the total marks; comprising of a two-hour written and performance exam; set at the end of the programme and differentiated between two tiers:

- a. Levels 1 and 2;
- b. Levels 2 and 3.

The written controlled paper will be 1 hour and 45 minutes long and will comprise of Aural Training, History and Analysis, Theory, Composition and Harmony. The Performance controlled paper will be 15 minutes long and will comprise of 2 practical pieces to be played on the candidates' selected instrument, chosen from the repertoire list found in the Appendix of this syllabus. In addition, candidates will be required to sit for a sight-reading task.

Candidates can obtain a level higher than Level 1 if they satisfy the examiners in both school-based assessment and controlled assessments, irrespective of the total marks obtained.

Private Candidates

Private candidates will not be expected to carry out any school-based assessment as school candidates. Instead, private candidates need to sit for another Controlled Paper as an alternative to the school-based assessment. Private candidates will be assessed through the means of **TWO** Controlled Papers, one of which is common with school candidates.

Paper I – Controlled Assessment - Private Candidates Only (30% of the total mark)

Written Examination (100 marks; 1 hour 45 minutes written exam and a 15-minute performance exam)

Paper I for private candidates shall be a controlled assessment assessing Levels 1, 2 and 3 as described in the respective syllabus and set and marked by MATSEC. It shall mainly focus on the learning outcomes marked in the respective syllabi as suggested for school-based assessment.

Learning outcomes with assessment criteria in the psychomotor domain can be assessed by asking questions in pen-and-paper format seeking understanding of the activity.

The second controlled assessment paper is common with school candidates and is differentiated between two tiers:

- a. Levels 1 and 2;
- b. Levels 2 and 3.

This second controlled assessment will comprise of:

- a 1 hour 45 minutes written exam on Aural Training, History and Analysis, Theory, Composition and Harmony;
- a 15-minute performance exam comprising of 2 practical pieces to be played on the candidates' selected instrument chosen from the repertoire found in the Appendix of this syllabus. These pieces need to differ from the other two pieces played for the first controlled performance;
- a 5-minute sight-reading task including preparation time.
