Introduction

This syllabus is based on the curriculum principles outlined in *The National Curriculum Framework for All* (NCF) which was translated into law in 2012 and designed using the *Learning Outcomes Framework* that identify what students should know and be able to achieve by the end of their compulsory education.

As a learning outcomes-based syllabus, it addresses the holistic development of all learners and advocates a quality education for all as part of a coherent strategy for lifelong learning. It ensures that all children can obtain the necessary skills and attitudes to be future active citizens and to succeed at work and in society irrespective of socio-economic, cultural, racial, ethnic, religious, gender and sexual status. This syllabus provides equitable opportunities for all learners to achieve educational outcomes at the end of their schooling which will enable them to participate in lifelong and adult learning, reduce the high incidence of early school leaving and ensure that all learners attain key twenty-first century competences.

This programme also embeds learning outcomes related to cross-curricular themes, namely digital literacy; diversity; entrepreneurship creativity and innovation; sustainable development; learning to learn and cooperative learning and literacy. In this way, students will be fully equipped with the skills, knowledge, attitudes and values needed to further learning, work, life and citizenship.

What is the subject? Give a general definition.

The study area SEC **English Language** is informed by the National Curriculum Framework (NCF) which highlights the need for the acquisition of English as an “important international language of communication” (p.60). This is reflected in the broad aims for this programme of learning found below.

The study area SEC English Language is based on learning outcomes which identify the knowledge, skills and values that learners achieve and demonstrate by the end of the programme. It builds on knowledge and skills that learners would have already acquired and aims to meet the “need to have proficiency in English for competitiveness in a globalised economic environment” (NCF p. 41).

What does a study of the subject entail?

SEC English Language requires learners to develop their ability to communicate clearly, effectively and accurately with a sense of purpose and audience when speaking and writing. In addition, it requires them to develop the skill to listen to and understand spoken English and to read and understand different text types while evaluating and analysing the writer’s intentions.

How is the subject related to candidates’ lives, to Malta, and/or to the world?

As stipulated in the constitution of Malta, English is one of the two official languages and for cultural and historical reasons; it is part of the country’s identity. English is the second language for many candidates, the first language for a significant number and the main foreign language for an increasing number of migrants (Educators’ Guide for Pedagogy and Assessment LOF p.5) and as such, it is the medium which candidates make use of both in the public and

personal domain. Furthermore, as citizens of an increasingly globalised world, candidates' proficiency in English is of paramount importance.

The aspirational programme learning outcomes for this subject are:

At the end of the programme, I can:

1. speak and write accurately, fluently and appropriately;
2. listen to and read texts designed to entertain, inform and persuade;
3. demonstrate an awareness of language;
4. collaborate with others in a community of learners;
5. make use of critical thinking skills to analyse and evaluate information;
6. reflect on my own learning in order to become autonomous;
7. express myself creatively;
8. make use of digital tools and resources to further my learning.

List of Learning Outcomes

At the end of the programme, I can:

- LO 1 write different text types coherently using cohesive devices when necessary.
- LO 2 write accurately and appropriately across genres for a different purpose and audience.
- LO 3 plan, draft and revise my own writing.
- LO 4 show understanding, retrieve and select information when I react to a different range of genres and age-appropriate texts written for a different purpose and audience.
- LO 5 make use of interpretation, inference and deduction.
- LO 6 understand text organisation and structure and recognise different techniques used by the writer/s.
- LO 7 understand what people say to me in various situations.
- LO 8 understand and take notes of continuous speech while listening for gist and subsidiary ideas.
- LO 9 listen to a conversation, presentation or dramatic performance and summarise the overt messages as well as the sub-text of motivation and bias.
- LO 10 adapt my style to all familiar situations, observing the appropriate use of register and vocabulary while stating what I think and giving my reasons.
- LO 11 ask appropriate questions to clarify my understanding on areas which are unclear and relay information that I have obtained by adding brief related comments.
- LO 12 while producing continuous speech, use appropriate, precise and correct language while focusing on intelligibility.

- LO 13 be consistent in my use of tense, voice, mood, person and number.
- LO 14 demonstrate my understanding of how words behave together by using these patterns in context.
- LO 15 produce various forms of discourse.

Programme Level Descriptors

This syllabus sets out the content and assessment arrangements for the award of Secondary Education Certificate in **ENGLISH LANGUAGE** at Level 1, 2 or 3. First teaching of this programme begins in September 2022. First award certificates will be issued in 2025.

The following refers to the qualification levels that can be obtained by candidates sitting for SEC examinations. These are generic statements that describe the depth and complexity of each level of study required to achieve an award at Level 1, 2 or 3 in English Language. (Level 1 being the lowest and level 3 the highest).

Level 1

At the end of the programme the candidate will have obtained basic knowledge, skills and competences in the subject such as basic repetitive communication skills and the ability to follow basic, simple instructions to complete tasks. Support is embedded within the task.

Level 2

At the end of the programme the candidate will have obtained good knowledge, skills and competence in the subject such as the interpretation of given information and ideas. The candidate will have developed the ability to carry out complex tasks. Limited support may be embedded within the task.

Level 3

At the end of the programme the candidate will autonomously apply knowledge and skills to a variety of complex tasks. Candidates will utilise critical thinking skills to analyse, evaluate and reflect upon their own work and that of others. Problem solving tasks may be part of the assessment process.

Scheme of Assessment

School Candidates

The assessment consists of Paper I and Paper II. Paper I consists of unmoderated school-based assessment (SBA) that is to be set and assessed by the school. Paper II consists of a controlled assessment that will take place at the end of the three-year programme.

School-based assessment (SBA) 30%: is any type of assessment of a candidate made by the school relevant to the respective SEC syllabus contributing to the final level awarded in the subject.

Controlled assessment 70%: is comprised of a two-hour written exam and a 10-minute oral examination, set at the end of the programme and differentiated between two tiers:

- a. Levels 1 and 2;
- b. Levels 2 and 3.

Candidates are to satisfy the examiner in Paper I and Paper II to obtain a level higher than 1.

The controlled assessment will be based on all the Learning Outcomes pertaining to the following skills: Speaking, Reading and Writing. An overview of the controlled assessment is shown in the table below:

CONTROLLED ASSESSMENT 1-2						
	SECTION	COMPONENT	TASK	MARKS	DURATION 2hrs 10 mins	
70% Controlled Assessment		Speaking (10%)	Long Turn	100	10 minutes	min 10
	A	Reading (15%)	Continuous/non-continuous text	30	40 minutes	2-Hour Paper
	B	Reading (15%)	Continuous/non-continuous text	30	35 minutes	
	C	Writing (30%)	Short/guided writing task	10	45 minutes	
Long writing task			30			

CONTROLLED ASSESSMENT 2-3						
	SECTION	COMPONENT	TASK	MARKS	DURATION 2hrs 10 mins	
70% Controlled Assessment		Speaking (10%)	Long Turn	100	10 minutes	min 10
	A	Reading (15%)	Continuous/non-continuous text	30	40 minutes	2-Hour Paper
	B	Reading (15%)	Continuous/non-continuous text	30	35 minutes	
	C	Writing (30%)	Long writing task	40	45 minutes	

Private Candidates

Private candidates shall be assessed by means of two controlled assessments.

The first controlled assessment (Paper 1) will focus on the learning outcomes identified for Paper 1. The second controlled assessment (Paper 2) is common with school candidates. An overview of the Private Candidate's Paper is shown in the tables below:

Private Candidate's Paper I 2-3					
SECTION	COMPONENT	TASK	MARKS	DURATION 2hrs	
A	Listening	Text 1	25	40 minutes	2-Hour Paper
		Text 2			
B	Reading	Continuous text	25	40 minutes	
C	Writing	Long writing task	50	40 minutes

Appendix 1: Glossary of Terms

Anaphoric reference	A relation between two linguistic expressions such that the second one refers back to the first e.g. <i>She must have cut herself.</i>
Audience	The receivers or intended receivers of a written, spoken or multimodal text.
Bias	A strong opinion that is presented by a writer or speaker.
Cataphoric reference	A relation between two linguistic expressions such that the first one refers forward to the second e.g. <i>It's nice, that table.</i>
Chunks in speaking	We use chunks like <i>you know, you know what I mean, I know what you're saying</i> to check and show understanding between speaker and listener.
Clause	A group of words containing a finite verb.
Cohesion	It is concerned with the formal links between clauses, how an item – a pronoun, a noun or a conjunction – in one clause may refer backwards or forwards to another clause.
Coherence	It is concerned with the overall interpretation of a text as a unified piece of discourse, not just the formal links. Coherence is a combined linguistic and cognitive property.
Collocations	Pairs of words that are habitually used together e.g. <i>heavy traffic, strong tea.</i>
Continuous text	Texts that are formed by sentences organised into paragraphs. Examples of continuous texts include newspapers, reports, essays, novels, short stories, reviews and letters. Continuous texts are also known as prose texts.
Discourse	It is any piece of continuous piece of speech or writing in its social context and refers to the interactive and communicative dimension of language, which involves the dynamic processes of text production and understanding. It entails that large units of language have a definable communicative function.
Discourse marker	A type of insert used in conversation. It signals interactively how the speaker plans to steer the dialogue e.g. <i>Now, here's some...</i>
Discursive writing	A piece of writing in which the writer discusses a given topic and presents arguments related to it.
Draft	The stage in the writing process in which the writer organises information and ideas into sentences and paragraphs.
Ellipsis	Omission of a clause or phrase elements that can be constructed from the context e.g. A: <i>I have to appease you.</i> B: <i>No, you don't.</i>
Expository writing	A piece of writing which seeks to explain. This can include essays, articles, instruction manuals, textbooks.
Genre	It refers to different communicative events which are associated with particular settings and which have recognised structures and communicative functions. Examples of genres according to this conceptualisation would be laboratory reports, news articles, recipes, religious sermons, political speeches, curriculum vitae, and more recent 'virtual' genres such as various types of emails, text messages, instant messages, tweets and Facebook pages.
Heteronyms	Each of two or more words with the same spelling but which have different pronunciation and meaning e.g. <i>wind meaning to coil up and wind meaning the blowing air.</i>

High-frequency words	Words which occur most frequently in written material e.g. <i>and, it, the</i> . These words often have little meaning on their own but they contribute a great deal to the meaning of a sentence.
Homograph	A word which is spelled the same as another word, but that has a different meaning, origin or pronunciation e.g. <i>bow (the front of a ship)/bow (a loop made in string or ribbon)/bow(a device to shoot arrows)</i> .
Homonym	A word that sounds the same or is spelled the same as another word but has a different meaning e.g. <i>new/knew, bow (to bend at the waist)/bow (a weapon)</i> .
Homophone	A word that is pronounced the same as another word but that has a different meaning or spelling, or both e.g. <i>sow/sew, to/two/too</i> .
Intelligibility	The communicative effect of pronunciation features. It is often dependent on the amount of strain the speakers cause the listener.
Non-continuous text	Texts that are organised differently than continuous texts, and therefore require a different kind of reading approach. Examples of non-continuous texts include lists, tables, graphs, diagrams, advertisements, schedules, catalogues, indexes and forms.
List of three	This refers to making three related points in order to support one's argument.
Low-frequency words	Words are considered low-frequency if they are not commonly used e.g. <i>tisane</i> .
Parallelism	This refers to using elements in sentences that are grammatically similar in structure, sound, meaning or metre. This technique adds symmetry, effectiveness and balance to the written piece. E.g. <i>Like father, like son</i> .
Purpose	the intention behind a text in terms of what it is designed to do and how it is used. Texts can have more than one purpose.
Register	It refers to the varieties of language that are associated with different circumstances and purposes. They are often dependent on the context and the language chosen is deemed as appropriate to the interaction, situation, communicative purpose and audience.
Repair	An utterance in conversation where a speaker repeats what was said with sort of correction e.g. <i>I don't think you sh- I think you should leave</i> .
Rhetorical devices	A use of language that is intended to have an effect on one's audience e.g. <i>repetition, figurative language, rhetorical questions</i> .
Scan	To look through a text quickly in order to find out a piece of information that you want or to get to the general idea of what the text contains.
Signposts	They are expressions that outline and structure the points of information or line of argumentation in the spoken interaction or written work.
Skim	To read or consider something quickly in order to understand the main points, without studying it in detail.
Style	The technique used in one's writing depending on syntax, word choice and tone.
Text structures	The five most common text structures are: compare and contrast, cause and effect, problem and solution, sequence, description.
Text types	Differ in purpose and linguistic characteristics. They are rhetorical modes that follow systematic internal discourse patterns. Problem-solution, exposition and argument are examples of text types.
Transactional	It is language which is used to make a transaction, and which has a result. It can be compared with interactional language, which is used to maintain relationships such as

	write a transactional letter that has a clear objective, e.g. asking for a refund or for information, or making a complaint.
Transitional expressions	Words and phrases which connect one idea to another within sentences and between paragraphs e.g. <i>in addition, similarly, although</i> .
Utterance	When we speak, we do not strictly produce sentences; instead, we produce utterances. An utterance is a single piece of speech marked off as a unit in some way; for example, by pauses and intonation.
