Introduction

This syllabus is based on the curriculum principles outlined in *The National Curriculum Framework for All* (NCF) which was translated into law in 2012 and designed using the *Learning Outcomes Framework* that identify what students should know and be able to achieve by the end of their compulsory education.

As a learning outcomes-based syllabus, it addresses the holistic development of all learners and advocates a quality education for all as part of a coherent strategy for lifelong learning. It ensures that all students can obtain the necessary skills and attitudes to be future active citizens and to succeed at work and in society irrespective of socio-economic, cultural, racial, ethnic, religious, gender and sexual status. This new syllabus provides equitable opportunities for all learners to achieve educational outcomes at the end of their schooling which will enable them to participate in lifelong and adult learning, reduce the high incidence of early school leaving and ensure that all learners attain key twenty-first century competences.

This programme also embeds learning outcomes related to cross-curricular subject foci, namely digital literacy, diversity, entrepreneurship, creativity and innovation, sustainable development, learning to learn and cooperative learning and literacy. In this way students will be fully equipped with the skills, knowledge, attitudes and values needed to further learning, work, life and citizenship. The nature of the subject shows the interrelation that exists between different topics.

European Studies is a multidisciplinary subject that enables learners to gain a better insight into the political, historical, social and cultural processes and issues inherent to the European continent. This subject does not centre solely on the European Union (EU) but goes beyond the process of European integration to discuss issues pertaining to the European continent from a wider perspective.

This subject addresses several issues at a national, European and global level. It provides an understanding of Europe in its economic, political, social and cultural dimensions. It discusses the EU as an integrated part of both national and international politics and recognises the EU's single market as the cornerstone of economic and social policy. It furthers the learners' awareness of the role played by the EU in international affairs and provides a deep understanding of the fundamental values of the EU and the Council of Europe. It discusses the role of migration as a cause of population change in Europe and examines demographic patterns between European countries, amongst other issues.

European Studies builds on the learners' prior knowledge, aiming to expand and extend it. The majority of learners are already familiar on some of the issues and topics discussed in this subject. This awareness is the result of what they observe and learn about formally from other subjects and informally through the larger community and the media. Thus, the learning outcomes presented in this subject are relevant and meaningful to all learners.

Programme Learning Outcome

At the end of the programme, I can:

1. Familiarisation with contextual concepts related to European Studies;
2. Cultivate an awareness of social issues within European and global society;
3. Improve learners' knowledge of Europe in the light of the broad spectrum of culture;
4. View Europe with a wider international and global perspective;
5. Develop attitudes and values of acceptance towards intercultural understanding;
6. Become familiar with Europe's contribution to human rights and citizenship;
7. Establish a clear understanding of the structure, function and workings of the EU as a whole and its major institutions.

List of Subject Foci

Programme Level Descriptors

This syllabus sets out the content and assessment arrangements for the award of Secondary Education Certificate in European Studies at Level 1, 2 or 3. First teaching of this programme begins in September 2022. First award certificates will be issued in 2025.

The following levels refer to the qualification levels that can be obtained by candidates sitting for SEC examinations. These are generic statements that describe the depth and complexity of each level of study required to achieve an award at Level 1, 2 or 3 in Business Studies (level 1 being the lowest and level 3 the highest).

Level 1: At the end of the programme the candidate will have obtained basic knowledge, skills and competences in the subject such as basic repetitive communication skills and the ability to follow basic, simple instructions to complete tasks. Support is embedded within the task.

Level 2: At the end of the programme the candidate will have obtained good knowledge, skills and competence in the subject such as the interpretation of given information and ideas. The candidate will have developed the ability to carry out complex tasks. Limited support may be embedded within the task.

Level 3: At the end of the programme the candidate will autonomously apply knowledge and skills to a variety of complex tasks. Candidate will utilise critical thinking skills to analyse, evaluate and reflect upon their own work and that of others. Problem solving tasks may be part of the assessment process.

Scheme of Assessment

School candidates

The assessment consists of Paper I and Paper II. Paper I consists of unmoderated school-based assessment (SBA) that is to be set and assessed by the school. Paper II consists of a controlled assessment that will take place at the end of the three-year programme.

School-based assessment (SBA): is any type of assessment of a candidate made by the school relevant to the respective SEC syllabus contributing to the final level awarded in the subject.

Controlled assessment: is comprised of a two-hour written exam set at the end of the programme and differentiated between two levels:

- a. Levels 1 and 2;
- b. Levels 2 and 3.

Candidates are to satisfy the examiner in Paper I and Paper II to obtain a level higher than 1

Part I - School Based Assessment (30% of the total mark)

The school-based assessment shall be marked out of 100 each year (9, 10 and 11). The assessment for each year will contribute to 10% of the overall mark and will be reported to MATSEC by the school in Year 11. Therefore, each year will equally contribute to the final mark of the school-based assessment. The school-based assessment shall reflect the MATSEC syllabus covered in Year 9, Year 10 and Year 11.

School-based assessment can be pegged at either of two levels:

- SBA at Level 1-2 must identify assessment criteria from these two levels. It is suggested that assessment criteria are weighted at a ratio of 40% at Level 1 and 60% at Level 2.
- SBA at Level 1-2-3 must identify assessment criteria from each of Levels 1, 2 and 3. It is suggested that assessment criteria are weighted at a ratio of 30% each at Levels 1 and 2, and 40% at Level 3.

The mark for SBA at Level 1-2 presented for a qualification at Level 2-3 will be calculated to 60% of the original mark. The mark stands in all other cases.

Part II - Controlled Assessment (70% of the total mark)

Written Examination (100 marks; 2 hours)

The controlled component of the assessment will consist of **ONE** paper having a two-hour duration which will carry 70% of the final mark and assessed externally. The paper will be set in English. Candidates will be required to answer **ALL** questions. The paper will assess **ALL** Learning Outcomes and may include assessment criteria from all the syllabus.

Paper II (Option Level 1-2 and Level 2-3) will consist of **THREE** sections: Section A, Section B and Section C. **All the sections are compulsory.**

Section A will consist of **THREE** questions (each with sub-questions), carrying a total of 10 marks.

Section B will consist of **THREE** compulsory sources or structured questions. The source or structured questions will contain a number of sub-questions totalling 45 marks.

Section C will consist of essay type questions. Section C will be assigned a total of 45 marks.

Paper II is differentiated between two Levels. Candidates must choose to either sit the examination paper at Level 1-2, or at Level 2-3.

Levels 1 – 2

The written paper will consist of questions covering assessment criteria from the syllabus in ratio Level 1 40%; Level 2 60%. Questions may include stimulus materials such as maps, graphs, diagrams and photographs. All Sections are compulsory and need to be answered in the space provided in the exam booklet.

Levels 2 – 3

The written paper will consist of questions covering assessment criteria from the syllabus in ratio Level 2 40%; Level 3 60%. Questions may include stimulus materials such as maps, graphs, diagrams and photographs. All Sections are compulsory and need to be answered in the space provided in the exam booklet.

Private candidates

Private candidates will not be expected to carry out any school-based assessment. Instead, private candidates will sit for another controlled paper (Paper I) as an alternative to the school-based assessment. Private candidates will be assessed through the means of **TWO** Controlled papers, Paper II will be common with school candidates.

Paper I – Controlled Assessment – Private Candidates Only (30% of the total mark)

Written Examination (100 marks; 2 hours)

Paper I for private candidates shall be a controlled assessment assessing Levels 1-2-3 as described in the respective syllabus, which will be set and marked by MATSEC. Paper I will have a two-hour duration and will consist of **FOUR** compulsory questions. This paper will assess **ALL** Learning Outcomes earmarked for SBA, and may include assessment criteria from all the syllabus.

This paper will be set in English. Candidates will be required to answer **ALL** questions.

The private candidates' paper will be structured as follows:

Levels 1 – 2 - 3

The paper will consist of questions covering assessment criteria from the syllabus in the ratio: Level 1 30%; Level 2 30%, Level 3 40%. The paper will consist of **FOUR** structured questions (which may include sub-questions), and will carry a total of 100 marks.
