

What training is right for you?

Every graduate research student has different training and development needs depending on previous experience, what stage they are at in their research degree, their specific research project and their plans for the future. Consequently, it is important that you take responsibility for your own development in a way that is appropriate to meet your research and career development needs. If you have commenced your doctoral studies from February 2023 onwards, you must complete 100 hours of training – as mandated by the Ph.D. Regulations (2023).
